

**MEMORANDUM OF RECORD**

To: All Post-ABD Doctoral Students  
From: Department of Administration  
Re: MSCHE Evidence Indicators  
Date: December 5, 2007

Folks,

We have some good news and some bad news. First, the bad news—the attached document will consume 44 minutes of your time. Second, the good news—the attached document provides you with a literal *tour de force* on all that is relevant to Line Officers in today's dynamically changing organizations.

This attached document becomes an invaluable source of feedback for our accrediting bodies, making it important that you give it your attention and return it to us before Christmas. The attached document is being submitted to ERIC for publication so that other university training programs can avail themselves of this one-of-a-kind translation of ELCC and NCATE Standards for administrator training programs.

Please check off the box on the upper left-hand of the first page. We are now using this form on all students in the program at Gallaudet. The various sections are color-coded to aid you in budgeting your time to complete the evaluation. And we would be most appreciative if you could return it by the time of the Christmas break.

Wishing you well in your professional and personal life, I sincerely remain,

Yours truly,

William J. A. Marshall, Chair
