

College of Liberal Arts, Sciences, & Technologies

Isaac Agboola, Ph.D., Interim Dean
Hall Memorial Building, Room 150

The College of Liberal Arts, Sciences, and Technologies (CLAST) offers majors in diverse disciplines of the humanities, physical sciences, and social sciences. Students select a major from a wide variety of fields and often supplement their studies by taking courses offered at other universities through the Consortium of Universities of the Washington Metropolitan Area. Upon completion of general studies and major course work, graduates of CLAST programs are prepared to enter the job market or to pursue professional and graduate studies at Gallaudet or other universities.

Through a variety of faculty research projects and grants, CLAST has strengthened the educational experiences of students. Financially supported student research projects, student co-op work experience and internships, equipment and instructional materials for science and computer labs, scholarships and opportunities for collaboration with faculty and students at other institutions are some examples.

Academic departments and programs housed in CLAST include Art; Biology; Chemistry and Physics; Communication Studies; Deaf Studies; English; Family and Consumer Studies; Foreign Languages and Literatures; Government and History; Mathematics and Computer Science; Philosophy and Religion; Psychology; Social Work; Sociology; Television, Photography, and Digital Media; and Theatre Arts.

The following CLAST departments offer degrees or certificates on the graduate level:

American Sign Language and Deaf Studies:

- M.A. in Deaf Studies

Government and History

- Certificate in Deaf History

Psychology

- Ph.D. in Clinical Psychology (may include a M.A. in Psychology)
- Psy.S. in School Psychology (includes M.A. in Developmental Psychology)

Social Work

- M.S.W. in Social Work
